## THE ARTIST

Since his debut album in 2001, Swiss musician Reto Burrell has cultivated a unique Americana style that blends elements of rock, pop, country, folk, and blues. His eleven previous albums have earned rave reviews and numerous airplays on the Swiss national radio stations.

In addition to his solo success, Burrell is a respected producer, having produced albums and written songs for numerous Swiss artists. As an experienced live performer, he has played hundreds of concerts across Europe, both with a band and solo, and remains a prominent figure in the scene.

## THE NEW ALBUM 'XII'

With his twelfth album, "XII", Reto Burrell is taking a stripped-down approach. Without a band but with his distinctive voice and an acoustic guitar – enhanced by minimal instrumentation – Burrell is bringing his music back to its core. This intimate concept will be brought to life on the upcoming Acoustic Tour.
